2016 Winter Math/Science Program

Math Classes/Small Group/One to One Tutoring (1/4 – 3/25): To build solid foundations for various math subjects and to gain good GPA at schools. The tutoring sessions will have lecture, problems solving practice and homework help with individual attention. New students can join the sessions at any time. The sessions we offer currently are as follows.

Class	Days	Time
Math Olympiad/AMC 8/10/12	TBD	TBD
Algebra 1 Enrichment	TBD	TBD
Algebra 2/Trig	TBD	TBD
Pre-Calculus	TBD	TBD
AP Cal AB/BC	TBD	TBD
Honor Physics	TBD	TBD
AP Physics	TBD	TBD
AP Statistics	TBD	TBD
Group Tutoring	TBD	TBD
One to One Tutoring	TBD	TBD
SAT I & II Math Prep	TBD	TBD

If either the current sessions don't fit your schedule or they are full, we can help form new sessions with other new students. These small group tutoring sessions are intended to help students who take **Algebra I, Geometry, Algebra II/Trig, Pre-Calculus/Math Analysis, AP Calculus AB/BC, AP Statistics and Honor/AP Physics** classes to complete their school homework and explain the concept and homework thoroughly.

One-on-One Tutoring: The one on one tutoring sessions provide high quality **Mathematics, Physics and Chemistry** tutoring with a targeted approach that is tailored to individual needs. Call or email to schedule the sessions with our instructor. Students sign up monthly depending on the number of sessions in each month, either 4 or 5 sessions per month.

SAT Math Prep: Review math foundations covered in SAT Math I or SAT Subject Math (IIC) tests, teach special test-taking strategies and practice and review tests in class. SAT class/tutoring can be conducted either in a one-on-one session or a small group session.
